MAHBOD MOGHADAM

Senior IT Support & Systems Specialist

Rasht, Iran | mahbodapachii@gmail.com | https://mahbodmg.ir | t.me/mahbod_moghadam | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Senior IT Support & Systems Specialist with 7+ years of hands-on experience in software troubleshooting, operating system optimization, legacy server migration, network connection tuning, and multi-PC studio maintenance. Proven track record of diagnosing root causes of system instability, designing VMware Workstation migration test environments for enterprise SQL databases, and executing non-root Android ADB performance tuning. Recognized with an official Certificate of Appreciation from a provincial government organization for modernizing critical IT infrastructure.

CORE TECHNICAL SKILLS

- **Software & OS Support:** Windows Setup & Registry Tuning, Application Error Resolution, Driver Compatibility, Boot & Startup Repair
- **System Optimization & Tuning:** Full PC Speedup, RAM/CPU Resource Management, SSD Migration Strategy, Hardware Bottleneck Auditing
- **Network & Connection Optimization:** Network Adapter Tuning, ISP-Matched DNS Selection, Packet Loss & Jitter Reduction, Bandwidth Cleanup
- **Mobile Systems Engineering:** Advanced Android Optimization via ADB & Shell (Debloating, Background Process & Thermal Tuning)
- **Virtualization & Infrastructure:** VMware Workstation, Windows Server, Legacy SQL Server 2000 Migration Testing, Linux Systems
- **Client & Remote Support:** Secure Remote Troubleshooting via AnyDesk, On-Site Studio & Enterprise Maintenance, Technical Documentation

PROFESSIONAL EXPERIENCE

Senior Freelance IT Support & Systems Specialist

Self-Employed | Rasht, Iran | 2017 – Present

- Diagnose and resolve complex software crashes, operating system errors, driver conflicts, and performance bottlenecks via AnyDesk and on-site visits.
- Deliver contract-based one-day IT support engagements for photography studios, corporate offices, and computer service shops, standardizing multi-PC workstations.
- Optimize Windows network settings, adapter parameters, and DNS configurations tailored to each user's ISP for faster, more stable connections and online gaming.
- Execute non-root Android performance optimization using ADB terminal commands to remove factory bloatware and optimize CPU/battery consumption.
- Conduct hardware upgrade audits (SSD, RAM, CPU bottleneck analysis) to maximize system longevity and cost efficiency.

IT & Software Support Specialist (Compulsory Military Service)

General Directorate of Cooperatives, Labour and Social Welfare of Gilan Province | 2 Years

- Supported mission-critical departmental software (Unemployment Insurance and Labor Inspection) connected to a shared organizational server.
- Identified a critical compatibility conflict between a legacy SQL Server 2000 database and Windows 7 that prevented antivirus deployment and caused system slowdowns.
- Built an isolated Windows Server test environment using VMware Workstation and migrated production SQL database files to validate modern OS compatibility.
- Authored comprehensive technical documentation for the migration path; awarded formal recognition and a Certificate of Appreciation.

EDUCATION

Master's Degree in Computer Software Engineering — Rasht Ahrar University of Technology & Higher Education (2019 – 2023)

Bachelor's Degree in Computer Software Engineering — Payame Noor University (2015 – 2019)

High School Diploma in Mathematics & Physics — Kooshyar High School (2012 – 2015)
